

## FOR SALE – MG MIDGET MK2

Advertised on behalf of Andrew Staddon:

A 1965 (C Reg) MG Midget Mk2 in blue with a black interior and wire wheels.

Apart from a wood-rimmed steering wheel and a wooden gear lever knob and inertia reel seat belts, the car has an original look to it. This is the original colour which is quite rare and was discontinued with the Mk3.

The car is currently SORN but was on the road last year. Andrew has owned the car for 11 years and done a lot of work on the mechanical side including a stainless steel exhaust. He simply doesn't have the time to devote to the car.

He is looking for offers in the region of £5 000.
